

Technical Data Sheet

Plagron Start Up

Primary Elements (% w/w):

- | | | |
|--|------|-----------------|
| • Total Nitrogen (N _{tot}): | 3.1% | |
| - Organic bound Nitrogen (N _{org}): | 3.1% | |
| • Phosphorus Pentoxide (P ₂ O ₅): | 1.6% | (water soluble) |
| • Potassium Oxide (K ₂ O): | 3.3% | (water soluble) |

Physical and Chemical Properties:

Acidity, pH: 4.5 – 6.1

Conductivity, EC: 38 – 48 mS/cm

Density: 1.18 – 1.24 g/ml

Form: Liquid

Colour: Dark brown/black

Odour: Specific

Foaming: None

Storage Condition & Use:

- Storage & transport between 0° and 35°C (protect from frost and avoid direct sunlight)
- Shake well before use
- Add 7 ml of Start Up per 1 litre of water (1:150). Use this solution once a week in the growth phase
- BBE: 4 years after production (unopened)
